

# SPOT YOUR OCCUPATION?

Ecological impact assessment, Ecology and environmental policy., Economics, Ecosystem services, Ecotoxicology - endocrine disrupting chemicals and metals, Electrical & control systems, Electrical (Radio frequency) engineering, Electrical and mechanical calibration, Electrical engineering, Electrical power supply systems, Electrochemistry, Electromagnetic compatibility, Electromagnetics, Electron microscopy, Electronic architecture, Electronic countermeasures, Electronic design, Electronic warfare, Electro-optic imaging, Electro-optical semiconductor physics, Embedded systems, Emergency planning and preparedness, Endocrinology, Energetic materials, Energy, Engineering failure analysis, Engineering Training and Development in the UK Armed Services, Entomology, Environmental Audits, Environmental Catalysis, Environmental chemistry, Environmental impacts of agriculture, Environmental pollution and control, Environmental risk assessment, Epidemiology, Equipment procurement, Ergonomics, EU science policy, Exotic animal husbandry, Experimental physics, Explosion protection engineering, Explosive engineering, Explosives detection, Explosives electrical safety policy, Explosives ordnance engineering, Facilities management, Facility maintenance, Field service engineering, Finance, Fire and Rescue Service Risk Management, Fire Detection and Suppression Systems, Fish and shellfish pathologist, Fish ecology, Fisheries science, Fisheries spatial analysis, Fishing gear technology, Flood and coastal erosion risk management, Flood resistant construction, Fluid Dynamics, Fluid mechanics, Food allergy, Food and environmental microbiology, Food authenticity, Food composition and standards, Food consumer safety, Food policy and legislation, Food safety, Food science, Forensic biology, Forensic science, Forest engineering, Forest management, Forest modelling, Forestry, Fuel cells, Fuel storage & distribution, Futures communication, Genetic engineering, Genomics and society, Geographic technician, Geographical information science, Geology, Geomorphology, Geophysics, Geospatial information and intelligence, GM detection methodologies, Grid infrastructure, Ground-based remote sensing and atmospheric electricity, Guided Weapons, Habitat management, Hazard Management and mitigation, Health informatics, Helicopter Health Monitoring Analysis, High Integrity & Safety Critical Software, High performance computing, Highway Information Management Systems, Histology Processing, Horizon Scanning, Human exposure to chemicals, Human Factors Engineering, Human health risk assessment, Hydrodynamics, Hydrogen storage, Hydrographic surveying, Hydrography, Hyperspectral imaging, Imaging science, Immunology, Impact and armour engineering, Implant design and testing, Industrial chemistry, Industrial design, Industrial pollution control, Information management and architecting, Information management and exploitation, Information sciences, Innovation policy, Innovative energy technologies, Innovative medical technology products, Inorganic and bioinorganic sensor systems, Inorganic chemistry, Instrument physics, Instrumentation and calibration, Intangible asset management (IAM) practitioner, Intellectual property rights, Intelligence analysis, In-vehicle information systems, Investigator Rail Accident Investigation Branch, Ionospheric Physics Hydrodynamics, Knowledge and Information Management, Knowledge theory and epistemology, Land Launched Guided weapons, Land Systems and radar, Landscape ecology, Large Scale Research Facilities, Laser Applications and Theory, Laser design, Legal Metrology, Life sciences, Light armour research, Lightning Specialist, Liquid Crystal Lasers and sensor technology, Maintenance Repair and Overhaul, Mammalogy, Manufacturing Development, Mapping and Ocean science, Marine and earth sciences, marine biogeochemistry, Marine cartography, Marine ecosystem dynamics, Marine Equipment & Nuclear Propulsion Engineering, Marine fisheries, Marine maintenance management, Maritime Combat Systems, maritime engineering, Mass spectrometry, Material Chemistry, Material Science, Materials Chemistry, Mathematical Modelling, Mathematics, Measurement technology, Mechanical Engineering, Mechanical Engineering Gas Separation, Mechanical Engineering of military land equipment, Medical Adviser, Medical Device Specialist, Medical Imaging, Medical Microbiology, Medical Physics, Medical textiles, Medical writing, Medicinal chemistry, Mesoscale Meteorology and Mesoscale Modelling, Metabolomics, metal fabrication, Metallurgy, Meteorological forecaster, Meteorology, Micro fluidics, Microbial physiology, Microbiological risk assessment, Microbiological safety of food, Microbiology, Microelectronics & Semiconductor technology, Military Communications, Military Engineering, Military Land Systems, Military Mounting Infrastructure, Military scientific operational analysis, Modelling & simulation systems, Molecular & cellular biology, Molecular biology, Molecular plant pathology, Motor transport, Munitions, Mycobacterium bovis testing in animals, Mycology, Mycoplasma, Mycotoxins, Nanomaterials & nanotechnology, Nanotechnology, Natural resources management, Natural resources research, Natural sciences, Naval architecture, Naval communications, Naval engineering, Naval warship building, maintenance & upkeep, Navigation systems, Nematode identification & control, Network & trunk communications systems, Network architecture, Network engineering, Neurology, Neuropathology, Neuroscience, Novel materials, Nuclear, Nuclear forensics, Nuclear non-proliferation, Nuclear reactor plant chemistry, Nuclear safety, Nuclear weapons, Numerical modelling, Nutrition, Nutrition & epidemiology,
